      - iii. Referred to finance committee
    - b. A Resolution to Support the Proposal to Rename the Clarence Cook Little Science Building
      - i. First reads
        1. Nicholas – from LSA SG, ongoing discussions about CC Little building. President mid-late 1920s before forced to resign, corrupted in opinion of authors to promote eugenics as president

of university. Deeply troubling to have building named after. Very different to remember history and explicitly glorify man...by giving building. Location, prominence, presence on campus. Proposal put forth by LSA faculty through policies and procedures recently standardized by President Schlissel. LSA passed, Rackham, others talking about it. Would love CSG onboard and to release statement.

2. Ryan – LSA SG – reiterate, purpose is to learn from past. Duty to make campus environment in which everyone welcome.
3. Nadine - One of biggest things to note, standard policy for building naming. Glorifying something that should not be glorified. For students to feel comfortable building name change should not be controversial, student solidarity.
4. Yara – can see things explicitly racist and offensive page 2 regarding eugenics, take time reading it, passionate and representing students who have actively been doing so much work on this.
  - a. Jesse – proposed names to replace? A – none official, trying to get university officials to get on board with process first
    - i. Possibility of students receiving it? A – trying to join resolution with statement to link, 20 page proposal linked with in-depth analysis
  - b. Efe – not destroying but not glorifying history, ways you see university shedding light on his tenure as president? A- Bentley library, great historical records, one way things are documented, picture in union that says was eugenicist. Had a lot of university presidents and they've all done things. Framework and words used are important, accountability setting precedent for future things
  - c. Eldar – who in end makes final call? A – bureaucratic process, president schlissel's advisory committee on history, schlissel gets to make call to put before board of regents.

- d. Marzia – why now? A – talked about for decades, naming policy Schlissel put through earlier this year, no standardization of policy before.
- e. Brittney – stumbling blocks exhibit as part of bicentennial, open to doing along lines of? A – personally think great way to go forward,
- f. Zeke – new schlissel petition part of this? A – yes, proposal not petition so don't need signatures but there is also petition with signatures to show support

ii. Comments on how to improve

- 1. Anushka – article yesterday reporting President Schlissel's updates at SACUA meeting, said important to consider history within context of what was normal at time, include mention of abnormal for not only now but that time period, not within realm of normalcy
- 2. Jesse – process of new name, solution proposal
- 3. Brittney – faculty and staff and older students on board

iii. Referred to resolutions committee

XIII. Old Business

XIV. Motions and Other Business

- a. Ali – motion to reconsider A.R. 7-006, messed up funds, \$100 more than put in resolution, asking to reconsider for \$100 extra dollars and shipping, likely wouldn't use whole extra \$200 but asking for, oversight, I made mistake; seconded; approved
- b. Reconsideration of A.R. 7-006
  - i. Ali – can look at resolution, proposing instead of \$699 for it to be \$899, \$100 for price and more for shipping, want to expedite.
    - 1. Marzia – why don't know shipping costs, probably \$30-\$50, not big gap, won't be full \$100.
